## MEN'S CRICKET UNIFORM SIZE GUIDE

### STEP ONE: RECORD YOUR MEASUREMENTS

Follow our guide on how to measure your body accurately to ensure you can find your perfect uniform. Please use a flexible tape measure and measure the full circumference around the body in cm.

#### 1. BUST

Use this measurement to order your correct top size.  
Measure around the fullest part of your bust, just below the armpits. The tape measure should be firm but have enough room to fit 2 fingers between your bust and the tape measure comfortably.

#### 2. WAIST

Use this measurement to order your correct top & bottom size.  
Measure around the narrowest part of your waistline, close to your belly button. The tape measure should be firm but have enough room to fit 2 fingers between your waist and the tape measure comfortably.

#### 3. HIP

Use this measurement to order the correct bottom size.  
Measure around the fullest part of your hips, this should be the middle of your glutes. The tape measure should be firm but have enough room to fit 2 fingers between your hips and tape measure comfortably.

### STEP TWO: CHOOSE YOUR SIZE

Once you have recorded your body measurements, you will be able to select your size below. It's ok to select a different top size to your bottom size. For a looser fit on tops or bottoms, order the next size up.
